

CRESTRON EMEA STANDARD LIMITED WARRANTY

Crestron EMEA warrants that if its Crestron brand Products are found to exhibit defects in material or workmanship under normal use during the period of three (3) years from the date of purchase, so long as Dealer promptly notifies Crestron EMEA of the defect and, if requested by Crestron EMEA, upon return of the defective product, Crestron EMEA will, at its sole discretion, repair or replace the Product subject to the additional conditions and exceptions described below. This warranty is a limited warranty and gives you specific legal rights.

Crestron EMEA warrants Crestron brand speaker products (Essence®, Aspire®, Excite®, Saros®, AIR® and FS) for the lifetime of the product, with the following exceptions: speaker grills and outdoor rated speakers are warranted for a period of five (5) years from the date of purchase from Crestron EMEA.

EXCEPTIONS

This warranty is applicable to Crestron products with the following exceptions:

- Disk drives and any other moving mechanical parts and pan/tilt heads are covered for a period of one (1) year;
- External power supplies are covered for a period of one (1) year, but with only 1 exchange per unit (serial number of the main unit needs to be registered);
- For internal power supplies to be covered by warranty, the loads have to be limited as mentioned in the related product manual. In case of indisputable proof of higher load on the unit the warranty coverage is no longer valid;
- Touch screen display is not covered when broken. The cause of a display to break can only be external by dropping the unit or wrong installation. For correct installation, the manual or installation guide needs to be followed and the original back box for this specific touch panel needs to be used. The correct back box can be supplied by Crestron EMEA or its subsidiaries. No liability can be taken for third party supplied back boxes and / or accessories;
- Touch screen overlay components have the same restrictions apply as mentioned point above. Additional caution should be made to apply inadequate tension upon install in the back box, causing the overlay components and / or display of the touch screen to turn faulty. In any case the overlay components of a touch screen are only warranted for a period of one (1) year, limited to normal use;
- Batteries have their standard wear and tear, causing Crestron EMEA to limit warranty to a period of (2) two years. Within these restricted periods a general limitation is a one (1) time replacement of the battery of the related Crestron Product.
